Agenda Request

Board meeting date: November 19, 2026

Jeffcom contact and phone: Matt Stewart, 360-344-9788

Subject: Agreement with APCO International for EMD system

Category: ◯ Resolution ◉ Contract approval ◯ Staff report ◯ Proclamation ◯ Other

Summary and analysis:

Jeffcom has been working for several months to initiate a change from the emergency-medical-dispatch (EMD) system no longer supported by King County EMS to a similar system provided by and supported by APCO International. The agreement proposed here for approval is the latest step in that slow process.

Jeffcom and APCO attorneys have arrived at a mutually agreeable document, which the draft presented here.

Fiscal impact and deviation from budget, if any:

The APCO system startup costs will be $8330 including the first year of subscription service plus the staff time for training and implementation. Subsequent years of use of the system are expected to cost $900, or a reasonably escalation of that current amount.

Attachment(s): Draft agreement; proposal for startup and renewal costs of EMD system

Recommended action:

Vote to authorize the director to execute the attached agreement following final legal approval

Submitted by:

Matt Stewart, Director
