3. General Fund

a. Revenue Highlights – Total Revenue of \$2,720,001.28 YTD at 75.9 %

i. 310 Taxes – YTD 60.9 %

1. SECO informed us of a couple of issues affecting our tax revenues.
1) BARS 337-16 Sales Tax for Emergency Communications: One of the three large cellular providers did not submit the excise tax to the state in April. Submittals take two months to get to counties. So, our August wireless tax receipt should be low. This was caught and is being corrected, so there will be a higher payment later.

2. BARS 337-64-00-01 E911 – Phone Tax – Prepaid: One of the prepaid vendors overpaid in a previous year, and an audit caught that. The money is being returned. So, if they have prepaid customers in Jefferson County, there will be deduction in some coming month from our prepaid tax receipts. They don't know how much it will be. SECO might cover the difference if it is a big hit, but since we get so little prepaid tax it is probably not a big deal. SECO will advise us of the amount.

ii. 330 State Grant - YTD at 93.1 %

1. We received the bulk of our BSO grant proceeds of \$335,023.00. The \$25,000 equipment grant will be the remaining portion of the budget.

iii. 340 Dispatch Fees – EJFR & Disc Bay CRS at 100% paid YTD at 75.8 %

iv. 360 Misc Revenues - YTD at 143.5 %

1. We now are earning General Fund LGIP on our MOU Reserve fund. Total YTD is \$6,072.31 which contributes an added surplus for our YTD%.
2. New Contract with AT&T contributes \$48,000.00 not budgeted.
3. Without AT&T & LGIP unbudgeted revenue of \$54,072.31, we are 81% of budget.

v. 380 Non-Revenues - YTD at 150.1%

1. Tyler Crewforce and ShieldForce reimbursement of \$ 2,127.98
2. User agencies paid \$72,952.18 pass-through expenses for the late Tyler December Billings, after negotiations were finalized for the Jeffcom/Pencom outstanding credits that were due.
3. AT&T has overpaid by \$12.500 for reimbursement of startup expenses; this will be refunded to them.

b. Expenditure Highlights: Total Expenditures \$ 2,381,389.99 YTD at 66.4 %
